

UNITY Biotechnology to Participate in Fireside Chat at the Goldman Sachs 41st Annual Global Healthcare Conference

June 11, 2020

SAN FRANCISCO, June 11, 2020 (GLOBE NEWSWIRE) -- UNITY Biotechnology ("UNITY") [NASDAQ:UBX], a biotechnology company developing therapeutics to extend healthspan by slowing, halting or reversing diseases of aging, today announced that members of its senior management team will participate in the Goldman Sachs 41st Annual Global Healthcare Conference.

Goldman Sachs 41st Annual Global Healthcare Conference

Date: June 11, 2020

Fireside Chat Time: 4:40 PM E.T. (*updated*)

Location: Virtual

A live audio webcast of the fireside chat will be available through the Investors & Media section of UNITY's website. An archived replay will be available for 90 days following the event.

About UNITY

UNITY is developing therapeutics to extend healthspan with an initial focus on cellular senescence. UNITY believes that the accumulation of senescent cells is a fundamental mechanism of aging and a driver of many common age-related diseases. Cellular senescence is a natural biological state in which a cell permanently halts division. As senescent cells accumulate with age, they begin secreting inflammatory factors, proteases, fibrotic factors, and growth factors, that disturb the tissue micro-environment. This collection of secreted proteins is referred to as the Senescence Associated Secretory Phenotype, or SASP. UNITY is developing senolytic medicines to eliminate senescent cells and thereby stop the production of the SASP, which UNITY believes addresses a root cause of age-related diseases. By stopping the production of the SASP at its source, UNITY believes senolytic medicines could slow, halt, or reverse diseases such as osteoarthritis and age-related eye diseases.
